PROFILE SUMMARY

BSc (Hons) Information Technology undergraduate at Horizon Campus (GPA 3.01/4.0) seeking a Software Engineering, Web Development, or Full-Stack Development internship. Experience building full-stack applications with React, Spring Boot, Node.js and MongoDB containerised with Docker, plus Python-based AI/ML projects using RAG, FAISS and scikit-learn. Comfortable with Git/GitHub workflows, REST API development, and Linux.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python, SQL, HTML, CSS
- **Frontend:** React.js
- **Backend:** Spring Boot, Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL, SQLite
- **AI/ML:** scikit-learn, Pandas, NumPy, RAG, FAISS
- **DevOps & Tools:** Git, GitHub, Docker, Docker Compose, Postman, Vercel
- **Operating Systems:** Windows, Linux

PROJECTS

Agriculture Disease Assistant – AI/ML Project GitHub

- Designed and implemented a Retrieval-Augmented Generation (RAG) workflow with FAISS vector search to help Sri Lankan farmers identify crop diseases and find treatment and prevention guidance.
- Applied a multi-agent AI approach and built the Streamlit interface; the prototype answers queries in English and Sinhala.

Librasys – Library Management Microservices Backend GitHub

- Designed and developed a microservices-based backend for a library management system, separating user management, book cataloguing, and borrowing operations into independent services.
- Structured the architecture for scalability and maintainability, with each service handling a single business responsibility.

Temperature Converter – Full-Stack Application GitHub

- Built a Spring Boot REST API with API-key validation and MongoDB persistence to store conversion history; tested endpoints using Postman.
- Connected a React frontend and containerised the frontend, backend, and MongoDB as separate services using Docker Compose.

EDUCATION

BSc (Hons) in Information Technology , Horizon Campus Nov 2023– Apr 2028 (expected)
Faculty of Computing | Coursework: Computer Networks, Operating Systems, Cloud Computing GPA: 3.01 / 4.0

CERTIFICATIONS & TRAINING

- AI/ML Engineer – Stage 1 and Stage 2 (completed)
- Intro to Machine Learning – Kaggle (completed)
- Python for Beginners – Simplilearn (completed)
- Git for Beginners – Great Learning (completed)
- Learning Linux Basics: CentOS & Labs – Great Learning (completed)

EXTRACURRICULAR ACTIVITIES

- Performed in cultural events with the university Art Alliance Club and the Leo Club (Salpila event), working with fellow performers to prepare and deliver group performances.
- Trained in Kandyan dance and received a certificate for training and performance.
- Volleyball team player, developing cooperation, discipline, and teamwork.

LANGUAGES

Sinhala (Native) | English (Working Proficiency)
